

~Client Testimonials~

Meredith, Redmond

"We couldn't be more pleased with our experience with Outdoor Lighting Perspectives. We absolutely made the right choice in having them install outdoor lighting up our driveway and around our front yard. We knew the moment Dan took so much time with us to discuss our vision and offer his input that OLP would be great to work with. Dan's offer to come back out and do a (free) demonstration of how the lights would look once installed was the cherry on the cake. Hours were spent with us before we committed and ultimately paid for their services. We appreciated the complementary demonstration; it made us feel more comfortable and sure about what we were doing. We will use their services again when we are ready to install more lighting in our back yard. Thank you OLP for all of your time and care. We are so delighted!"

Kate, Sammamish

"The BEST! Dan and his crew are so very talented. They have a great eye for what would work best in each setting/landscape location. My back yard is truly transformed by the landscape lighting they have installed! Dan excels in customer service as well. Broken fixture or burned out light bulbs? Not a problem! They come right out to fix the light and also check/clean all the others as well! Highly recommended. A+."

Andrew, Redmond

"We couldn't be more pleased with our experience with you and Outdoor Lighting Perspectives. We absolutely made the right choice! We knew the moment you took so much time with us to discuss our vision and offer your input that you would be great to work with. Your offer to come back out and do a demonstration at nighttime was the cherry on the cake. We appreciated that service, and it made us feel more comfortable and sure about what we were doing."

Stacey, Redmond

Dan, I just wanted to let you know what a great job you did with our lighting the other day. It's so nice to be able to see outside in the dark again! The placement of the lighting looks great on our landscaping and I couldn't be happier. Thanks again and have a great weekend.

Dan, Medina

"The most customer service friendly guy I've met in a while. Much Thanks."
