

**OUTDOORLIGHTING**  
PERSPECTIVES®  
THE NIGHT IS OURS™

*The Outdoor Lighting Perspectives Difference*

Seattle outdoor lighting installation is more than just popping a few lights in the ground. With professional design and top quality fixtures, your home and landscape will shine with brilliance for years to come. With Outdoor Lighting Perspectives of Puget Sound, we don't stop at design and quality. When you work with us, you'll experience the OLP difference from the first call through installation and for all of your future maintenance needs. **Outdoor lighting is all we do, so we'll be here for you now and always.**

**Personal Landscape Lighting Service**

The number one focus is you! We will make you feel comfortable from the very first conversation. All of the little things are big to us, so we take the time to listen closely to hear what you want. We take note of every detail to do whatever it takes to find the perfect solution for your outdoor lighting needs.

**Seeing is Believing**

Landscape lighting is all about beauty and splendor. We believe so strongly in the visual appeal of our lighting designs that we are one of the only **landscape lighting companies** to offer a free nighttime demonstration. Yes, you read that right. We will bring the lights to your home shortly before dark, set up the proposed design and flip the switch at sunset. You'll be so delighted with the transformation; it will be hard to imagine living without the lighting. But better yet, you'll get a sense of what we are planning,

and we can work together to make adjustments for a perfect final lighting design.

**Meticulous Installation**

From start to finish, we'll treat your home and landscape like our own. When we install your new outdoor lighting system, we'll make sure to disturb your landscape as little as possible, and we'll make sure it is in pristine condition before we leave. And to make sure the installation is top quality through and through, we'll come back after dark to view and adjust your system at night for the best aesthetics.

At Outdoor Lighting Perspectives of Puget Sound, we have the most professional lighting design and installation team, so you'll enjoy every minute of the experience. We also provide warranties on our fixtures, lamps, transformers, and timers. For long term health of your system, we have comprehensive maintenance plans which will allow you to forget about it as we will come by every year to make adjustments, trim back hedges and clean and repair anything inadvertently affected by weather or human interference.
